

NEW!

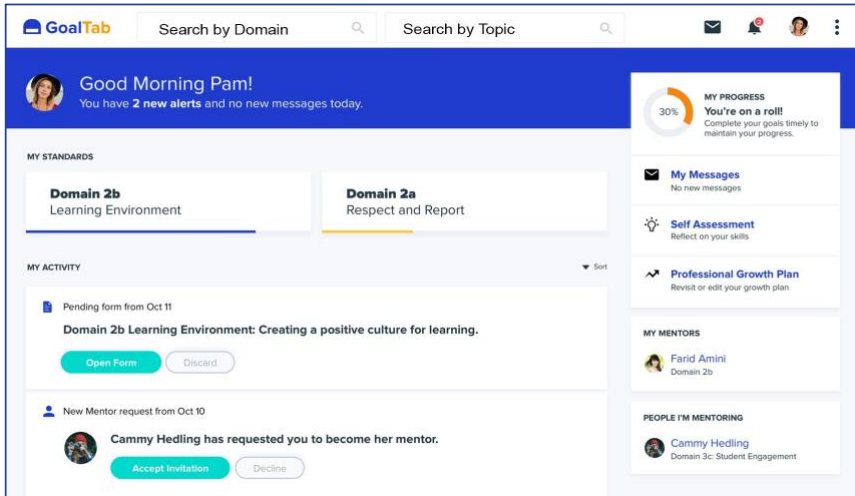

GOALTAB™

Personalized PD

Accelerate Teacher Growth and Student Achievement

Ideal for new or master teachers in refining classroom practice and for a coach's use in mentoring

HERE'S HOW IT WORKS for TEACHERS and MENTORS:

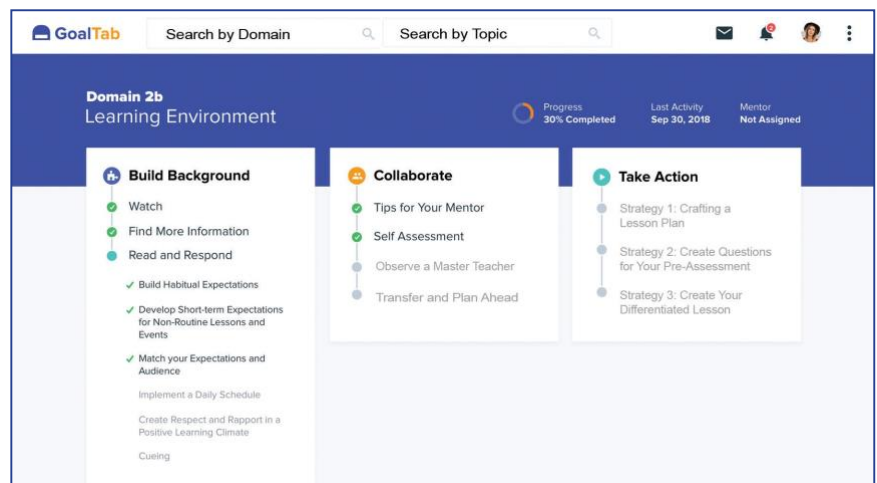

1. Your Dashboard

- Teacher or mentor selects a topic or a performance standard to focus growth in an area of interest or need.
- You can view your messages, activities, and progress or collaborate with colleagues— all in one place!
- An observer or mentor may sign into their own dashboard to message a teacher to suggest focus on a specific skill or standard.

2. Personalize Your Growth Path

- **Build Background**
 - View short, engaging videos
 - Access focused information on your topic, skill, or standard
- **Collaborate**
 - Take a *Self Assessment*
 - *Invite a Mentor*
 - *Observe a Master Teacher*
 - *Transfer and Plan Ahead* for job-embedded practice.
- **Take Action**

Use strategies and activities to enable practice of new skills while collecting evidence of progress.

3. Track Your Work and Progress

- Work independently or collaboratively with research-based content and tools.
- View the history of your work and ongoing progress toward your goals.
